These certificate programs are developed and delivered locally by the National Safety Council – Nebraska, providing in-depth information tailored to specific safety topics and professional roles.

Safety for the Supervisor Certificate (SSC)

This course is designed for individuals who are moving into their first leadership/supervisory position. Though they may not be a safety manager or director by title, they have a crucial role to play in ensuring safe work practices are adhered to and the success of safety programs overall. This course will emphasize leadership and management principles.

TOPICS INCLUDED

- Supervisor's role & responsibilities with respect to safety
- Safety culture
- Injury reporting & basic incident investigation
- Coaching skills
- Basic regulatory requirements: HAZCOM, Lockout/Tagout, Emergency Action Plans, Personal Protective Equipment, and others

Safety for the Human Resource Professional - SHRP

This certificate course is intended for HR professionals whether you are new to safety, responsible for safety, or working with the safety department. The topics and depth of coverage will help HR professionals recognize and understand the basics of safety regulations and other important safety considerations that apply to their organizations. By completing this certificate, attendees will be prepared to recognize areas of regulatory and financial safety risk, plus come away with a road map to address shortcomings in their current safety program.

TOPICS INCLUDED

- Recordkeeping Basics (OSHA log requirements, relationship between log and workers compensation, etc.)
- Reduction of Risk (Workplace violence, ergonomics risk factors, drug and alcohol testing, emergency plans, workplace driving policy, safety committees, etc.)
- OSHA (Scope/purpose, chemical hazard communication, basics on lockout/tagout, fall protection, & confined space, PPE/loud noise, electrical safety, forklift operator requirements, first aid/bloodborne pathogens, etc.)
- Department of Transportation (DOT) Basic Requirements

HRCI® Certification
Participants will receive 12 hours of continuing education credit. "The use of this seal confirms that this activity has met HR Certification Institute's® (HRCI®) criteria for recertification credit pre-approval."

Certificate in Safety Leadership (CSL)

Strong leaders are the cornerstone of safe world-class organizations. Leaders demonstrate commitment and conviction towards improved decision making, risk reduction, best practices, safety management systems, and performance measurement. The Certificate in Safety Leadership will help develop your leadership mentality and give you the skills to succeed.

SESSIONS INCLUDED

- Safety Management
- Communicating Collaboratively
- Authority v Leadership
- People Styles | Crucial Coaching
- Continuous Improvement
- Project Management
- HR Plans | Conflict Management
- Safety & Health Management

The following certificate programs are offered in cooperation of the University of Nebraska at Omaha, and the National Safety Council - Nebraska Chapter.

Must be completed in a 5 year period.

Advanced Safety Certificate

The NSC Advanced Safety Certificate (ASC®) program helps you grow as a leader—not just a safety professional. This nationally recognized program goes beyond compliance to strengthen the soft skills that drive real safety culture change, including communication, influence, and leadership.

The ASC® Curriculum provides an in-depth look at the issues safety practitioners face every day and offers proven approaches and solutions. The core required course (POSH) provides a solid foundation of knowledge to meet all safety challenges, and the electives allow for a more in-depth review of specific safety topics. Through 12 training days and 7.8 CEUs, the ASC® program equips you to lead safer workplaces, and grow personally and professionally.

REQUIRED

- [ ] POSH (Principles of Occupational Safety & Health) - 2.6 CEUs

ELECTIVES (Complete 5.2 CEUs)

- [ ] ESMP 1 - 1.3 CEUs
- [ ] ESMP 2 - 1.3 CEUs
- [ ] Safety Training Methods - 2.6 CEUs
- [ ] Fundamentals of Industrial Hygiene - 2.6 CEUs
- [ ] Ergonomics: Managing for Results - 0.65 CEUs
- [ ] Job Safety Analysis - 0.65 CEUs
- [ ] Safety Inspections - 0.65 CEUs
- [ ] Incident Investigation - 0.65 CEUs
- [ ] Team Safety - 0.65 CEUs
- [ ] Risk Awareness Workshop - 0.65 CEUs
- [ ] Industrial Hygiene Basics - 0.65 CEUs
